

## **Junior Applications Engineer**

### **Major Duties:**

Responsible for assisting in the preparation of written proposals, which include conceptual drawings, costing and presentation to customers. Proposals will be prepared for various factory automation solutions for the Automotive, Life Science and Food industries.

### **Specific Responsibilities:**

Quote Line-up:

- Receive quote file, review and ensure all contents are there and in order and reference the electronic RFQ folder.
- Alert Technical/Data Support if data expected via e-mail
- Create an assumptions document based on information received. If questions arise, make list of questions and contact the customer.
- Travel if required to attend meeting at customer facilities
- Ensure checklists are included as well as all ISO documentation

Estimating:

- Assist with developing a concept and process for RFQ
- Assist with creating estimate sheet(s)
- Utilize manufacturing software to research previous job costing and use as reference tool.
- Work with suppliers to obtain accurate component information and quotes. Maintain files of vendor quotes as they are received.
- Participate in team meetings to review concept and pricing structure.
- Work independently and in a team environment with the PPD Supervisor, Estimators, Account Reps, and Shop floor Supervisors to assist on the successful concept development, quote preparation and execution of the quote.
- Preparation of written proposals including concept development, pricing and presentations to existing and potential customers.
- Travel if required to present proposal to customer
- Aid in follow-up with Account Rep regarding status of proposal.
- Work toward developing standard phrasing to enhance the standardization of content of our proposals.
- Assist with completion of checklists as well as all ISO documentation forms

*Only selected candidates will receive a response. Thank you for your interest.*

*In compliance with the Integrated Accessibility Standard Regulation (IASR) under the Accessibility for Ontarians with Disabilities Act, 2005 (AODA), Reko International Group Inc. is committed to accommodating job applicants with disabilities during the selection process.*

- Maintain organized and accurate quoting records to enable another team member to follow quoting steps in case of absence or re-designation of quote.
- Assist with quoting with confidence and be able to sell the concept as well as costs and timing. All notes, references and vendor quotes must be present at review.
- Attend weekly estimating priority and scope meeting.
- Present oneself in a professional manner in the office as well as at customer facilities.
- Ability to recognize and capitalize on new quote opportunities while at customer facilities.

Job Kick-off & Closing:

- Assist with internal kick off meetings (line-up meetings) of the new project to help all team members understand the complete scope of the project.
- Participate in post project review meetings to compare what was quoted to what was actually completed.

All other duties as assigned.

**Qualifications:**

Successful candidate must possess post-secondary education in a relevant technical program, with experience specializing in mechanical design and controls design (PLC). In addition, this person will have strong problem-solving skills, keen understanding of material and labour costs, with the ability to meet deadlines. Excellent written and oral communication skills are required. Along with the ability and interest in using CAD software. Must be proficient in Microsoft Excel and Word

**Experience:**

2 years' experience or more. Experience or background in mechanical engineering and/or controls engineering. Any prior experiencing estimating for an Automation Company would be considered an asset. Experience working in a manufacturing automation company.

Additionally, this person must be capable of presenting their convincing concepts in a professional manner to the internal and external customers. Technical knowledge of manufacturing processes in the Automotive industry. Life Science and Food industries experience would be considered a strong asset.
