

Senior Mold Maker

Job Summary

Plan and organize the production of molds by reading and interpreting engineering CAD files, performing mold-related calculations; spotting; assembly; dis-assembly; verifying work piece material; and establishing and organizing the mold-building process.

Specific Responsibilities:

- To work in a clean, safe, and organized manor, as outlined in the Health and Safety Program; this includes crane use and training, as well as all material handling
- Assemble and dis-assemble molds
- Size, fit, spot all components related to mold making process
- An understanding of fitting and functionality of hot runner systems
- Perform Engineering changes and repairs as outlined by production schedule
- To assist when called upon to train apprentices on the proper use of tool room machinery for the purpose of making mold components; this equipment includes vertical milling machines (Bridgeport), surface grinders both manual and automatic, horizontal lathe, cutter grinder and both vertical and horizontal saw
- Willing and able to go on service calls to the customer facilities to perform warranty work on our tooling including any troubleshooting
- Perform all other duties as assigned

Knowledge and Skills:

- Excellent customer service skills
- Ability to work in a team environment
- Strong problem solving and organizational skills, with the demonstrated ability to meet deadlines
- Excellent written and oral communication skills are required

Requirements:

- Minimum of eight to ten (8-10) years' experience in the plastic injection mold and tooling industry
- This position requires travel to the US, therefore only candidates who can show proof of vaccination will be considered for the role

Company Background

Strengthening communities by advancing manufacturing.

Established in 1976, Reko Manufacturing Group has proven to be a leader in the tool and mold manufacturing industry by focusing on innovation, technology and quality paired with highly skilled professionals. Our key focus is soft trim, low compression tooling for acoustics and carpet in the automotive sector. At Reko, we pride ourselves on providing a strong family culture that embraces innovation, creativity, and a team atmosphere.

We are continuously seeking out the best and the brightest to become an integral part of a life-long opportunity and contribute to a vibrant future at our company. At Reko, we invest in our people and give them the tools they need to achieve success by offering apprenticeship programs, tuition reimbursement, and referral bonuses.

Adhering to our core values of respect, customer focus, innovation, flexibility, teamwork, honesty, and dedication, we work creatively to ensure that our customers get what they request, on time. We will maximize value for all stakeholders. Our supportive family culture means that we embrace diversity; that we work together; and that we enjoy lots of social events together too.

Don't wait! Join our family today!
