

Mechanical Service Technician

Job Summary

Reko International Group Inc. is currently seeking an innovative, results driven individual to join our team. The successful candidate will be responsible for onsite installation, setup, and production support of the automation projects Reko builds. The individual will also be involved in the machine startup and customer runoff at Reko. If at times onsite services are not required, the individual will assist with new machine builds. It is expected this position will require extensive travel regularly and the technician be on site at customers facilities typically throughout North America.

Specific Responsibilities

- Support the installation of machinery as required, including assembly, set-up, and machine operation to verify functioning, machine capability and conformance to customer's specifications. In addition, assisting with assembly and programming of machines in the shop.
- Respond to calls for service as directed by the Service Coordinator/Supervisor, diagnoses problems and performs maintenance and machine repair.
- Ensure service reports are filled out correctly and submitted to the Service Coordinator upon completion of the job.
- Must be willing and able to travel across international borders.
- Conduct themselves at all times in accordance with company policies and procedures. Work in a safe and organized manner, as outlined in the Health and Safety Program, ensure Health & Safety policies and practices are adhered to.
- Regular travel to customer sites, at times short notice.
- All other duties as assigned

Knowledge and Skills

- Sound diagnostic or analytical capabilities to solve machine and/or process malfunctions in the field.
- Experience operating machining equipment such as mill, surface grinder, lathe, welder, and certification or training in overhead cranes and forklifts.
- Knowledge and experience of shop mathematics, machining, hydraulics, pneumatics, electrical and mechanics.
- Experience working with robots including Fanuc, ABB, or Nachi (jogging, teaching points, and general troubleshooting)
- Experience using eDrawings, Composer, or similar to review machine designs.
- Experience reading electrical and pneumatic drawings, including trouble shooting of these circuits.
- Computer literacy is a requirement (Microsoft Outlook, Work, and Excel)

We thank all applicants for their interest. Please note that due to the volume of resumes, only candidates selected for an interview will be contacted.

Reko International Group Inc. is committed to developing a diverse and inclusive workplace. We encourage candidates from diverse backgrounds, including those who may need accommodations, to apply to join our team. In accordance with the Accessibility for Ontarians with Disabilities Act (A.O.D.A.) please contact us should you require accommodation to apply or if selected to participate in an assessment process.
